Texts/Notes

There is **no required textbook** for the class. All **lecture notes and course materials will be available** in the class website. Three books may help you as a complement to the class:

- OpenIntro Statistics (free online resource).
- Statistics for Business: Decision Making and Analysis, by Robert Stine and Dean Foster
- Naked Statistics, by Charles Wheelan

Evalulation

Grades will be determined by a midterm exam given on the 6th week (45%) and a final exam (55%). The exams will be closed-book/closed-notes. I have a mulligan policy, ie, if you do better on your final than in the midterm, your grade will be totally based on the final score.

There will be optional (practice) homework assignments throughout the quarter. Solutions for the homework problems will be provided.

It is expected that students will complete all exams for the course. **No request for rescheduling of an exam will be accepted on (or after) the date of the exam.** Only extreme personal problems are a reason for rescheduling of an exam.

Request for Regrade

Clerical errors will be corrected without hassle. Other regrade requests must be submitted in writing within one week (7 days) of the exam's return. Keep in mind that the entire exam will be subject to regrading.

Review Sessions

There will be a review session for the midterm on week 5. And there will be two review sessions before the final on week 10.

Office Hours

There will be no official office hours, but I am happy to meet with anyone that wants to schedule an appointment. The best way to contact me is via email.

Class Handouts

You are responsible for bringing the relevant section of the lecture notes to every lecture. All course materials are available on the web.
